## Microsoft Certifies the windream-Server for the SQL Server 2014

**New Gold certificate confirms full compatibility of the windream ECM system with the Microsoft database technologies**

After our re-certification as a Gold partner, as reported in our January newsletter, the Microsoft Corporation has awarded us another Gold certificate! This certification concerns the full compatibility of the windream Server with the Microsoft SQL database technologies.

### Extensive tests passed successfully

We passed all tests, based on our ECM system and the most recent version 2014 of the Microsoft SQL Server in the Enterprise Edition, successfully. Next to other SQL Server versions, windream uses the SQL Server 2014 Enterprise Edition as a database component for the management of ECM-specific documents and meta-data.

To be awarded the “Gold” certificate, not only the specified test criteria, but a whole number of additional criteria had to be fulfilled.

All test scenarios and technical requirements for participating in the tests are specified in the guidelines of the so-called "Microsoft Platform Ready" program ("SQL Server 2014 DP Tests", „Additional Requirements for Gold" and „Elective Requirements for Gold"). Confronted with these complex rules, the windream Server as the central component of the windream ECM system passed all data processing tests in combination with the SQL Server 2014 successfully.

**Please note:**

## **End User License Conditions for the Microsoft SQL Server 2014**

We would like to alert our customers and partners of the fact that with the release of the MS SQL Server 2014, the corresponding license conditions for end users of this server version were published. The "End User License Agreement" (EULA) for the SQL Server 2014 can be downloaded from the windream demo portal under "Partner, \_Information, Produkte – products, 3 Loesungskomponenten – solution components, 3.01 Microsoft SQL Server". If you deploy the SQL Server 2014, please read these license conditions carefully.

---

## **Current windream Patches**

Current patches for the windream ECM system are available via our download portal. For an overview of all current updates, please visit the following link.

## windream Trainings

### Special Trainings for English-Speaking Partners

In the calendar weeks 32 and 33, we will be offering a compact training block in English. The training will be held at our Bochum headquarters and will convey knowledge from all currently available windream trainings in a compressed form.

For further questions, your registration for the training block, or for your individual suggestion for topics to be covered, please contact our partner management at [partner@windream.com](mailto:partner@windream.com) or [+49 234 9734-541](tel:+492349734541). We are looking forward to hearing from you.
