

Press release of February 5, 2020

## **Getting a grip on digitization!**

### **windream GmbH at the digitalBAU 2020**

**Bochum. - This year, windream GmbH will participate in the digitalBAU trade fair in Cologne, which will take place for the first time. Under the motto “Getting a grip on digitization” the Bochum-based IT-specialist will present tailor-made solutions for the management of electronic documents in the construction industry.**

The focus of the windream exhibition program is on digital file management with a special emphasis on construction files. Interested trade fair visitors can find the windream stand in hall 7 of the Cologne fairground. The stand number is 501.

#### **digitalBAU as a trade fair debut**

The digitalBAU will take place from 11 to 13 February. With its main theme of digitization, it serves as a supplementary event to the leading BAU trade fair in Munich and focuses on specialized digital solutions for the construction industry.

As the windream GmbH trade fair team already held many successful consultation sessions at the BAU 2019 in Munich, the IT experts from Bochum will now be available for the first time in Cologne in February to answer visitors' questions concerning digitization, archiving, document management and business process optimization with an industry-specific focus.

Further on, the following co-exhibiting windream integration partners will also be available for personal discussions: ComputerLine GmbH from Frankfurt/Main with a CRM integration into cobra, MEGA Software GmbH from Dortmund with an ERP solution, One Click Solutions GmbH from Bachhagel in Bavaria with their efficient incoming mail solutions and visuplus GmbH from Salzatal in Saxony with a branch-specific office software for architects, planners and engineers.

As many customers from the construction sector are already using windream products, the new trade fair in Cologne offers windream GmbH an ideal platform for presenting its software solutions to an even larger audience.

Further information on the digitalBau can be found online at [www.digitalbau.com](http://www.digitalbau.com) and on the windream GmbH homepage at [www.windream.com](http://www.windream.com). On request, windream GmbH will also be glad to provide potential trade fair visitors with free tickets.

#### **About windream GmbH**

windream GmbH develops and distributes the windream ECM-system. windream GmbH currently employs 100 people and supports a network of about 250 distribution, integration and cooperation partners throughout Europe, the USA, South America and Africa. International enterprises such as Bilfinger Noell, the DFS Deutsche Flugsicherung (German Air Traffic Control), Deutz AG, Swisscom and Koenig & Bauer are included among the company's customers.

#### **About the windream Enterprise Content Management System**

windream, protected by patent since 2003, is counted amongst the leading solutions for acquiring, administering and archiving electronic documents in the office sector as well as in the field of SAP-integrated applications. windream is the first ECM-system worldwide to be integrated into an operating system.

The Standard Edition is generally used by smaller and medium-sized companies and the Business Edition by large enterprises. A whole variety of integrations into third-party products extend the windream product portfolio. Integrations into ERP-, resource management, financial accounting, knowledge management, groupware and imaging / data capturing solutions as well as integrations into different branch-specific software systems are included among the product range. windream has achieved a first-class result as a participant in the BARC studies "Enterprise Content Management" in all test disciplines.
