

Press release of December 21, 2022

## **windream GmbH presents new CEO and extended management**

**Bochum. On January 1, 2023, Stephan Serger will become the new CEO of windream GmbH. He will take over this task from Roger David, who successfully managed the company for more than 20 years and who will now retire from the operative business. Furthermore, windream GmbH, the provider of the enterprise content management suite of the same name, distributes its management tasks on several shoulders at the beginning of the year and appoints three new team leaders as well as a new Head of Sales.**

Stephan Serger has been working in the consulting sector at windream GmbH for the last ten years. In his new role as Managing Director, the business informatics specialist will build on the previous successes of the ECM-provider and further strengthen the partner business. In doing so, he will be supported above all by the extended management team. As of the new year, Tim Hillig, who has been a member of the windream team for 17 years already, will join the management team as an authorised representative. Malte Bielefeld, who has three years of experience as a consultant, has been promoted to the management of this department. Hilmar Hänel has already been Team Leader Partner Management since July 2020 and will also be responsible for Inside Sales at windream GmbH from next year. The new management team is completed by Patrick Plenz. He brings in his longtime expertise in marketing of the Bochum-based ECM-provider and will be responsible for this area in the future.

## **Well positioned for the future**

"With this new structure, we are well positioned for the future and will continue to work on together with our partners on a further market expansion of windream", summarizes Stephan Serger and adds: "At the same time, the entire windream team would like to thank Roger David, who has successfully managed the company for more than two decades. We are very pleased that he will support us in an advisory role in the future."

### **About windream GmbH**

For 20 years, windream GmbH has been one of the top companies in the development and marketing of business software products for electronic archiving, digital document management and business process control or workflow automation. Above all, the company is nationally and internationally known for its ECM-system of the same name, windream. More than 100 employees and a worldwide network of about 250 sales, integration and cooperation partners take care of more than 2,600 customers with more than 260,000 workstations. The clientele includes nationally and internationally known and renowned companies such as the pharmaceutical groups Roche and CureVac, the media companies RTL Group and Heise Group, the Raiffeisen banks of Upper Austria, Tyrol, Carinthia as well as DFS Deutsche Flugsicherung and Rhenus Logistics.

### **About the windream Enterprise Content Management System**

With the patented integration into the Windows operating system, the foundation for today's windream ECM-system was laid more than 20 years ago. With this unique approach, windream sets new standards in terms of intuitive handling, inspiring usability and user acceptance also in the current version 7. All possible solutions, whether e-file, e-mail management, invoice receipt, incoming mail, scanning, archiving, search and find, business process automation, workflow and mobile working are modularly designed. windream is equally flexible when it comes to integrations into third-party products, e.g. ERP, merchandise management and financial accounting solutions. Thus, companies can configure the windream ECM-system like a construction kit exactly according to their specific requirements. With the Dynamic Workspace, the latest windream version 7 successfully bridges the gap towards mobility and cross-platform availability under an interface which can be designed by the user himself. No matter if in the office with a PC or a laptop, a Smartphone or a tablet: Any time, any place, any device. windream Dynamic Workspace is included in the windream Business Edition and does not need to be licensed as an additional module. windream - just use it
